# BROWSER VULNERABILITIES PRESENT BIGGEST ENDPOINT CHALLENGE FOR TODAY'S SENIOR IT STAFF
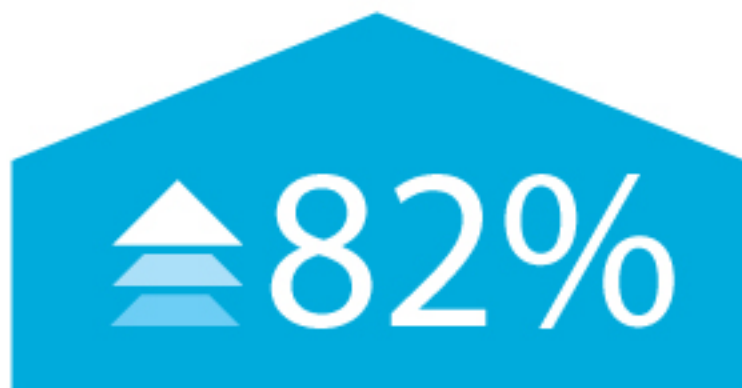

With the number of exploitable browser vulnerabilities accelerating this year,

72% of 685

say this is making security difficult for their organization, more than any other issue.

82%

of organizations were hit by cyber-attacks in the last

12 months

84%

agree that modern threats have made traditional anti-virus security suites less effective

Ransomware
the most disruptive threat, more so than APTs
